

Open Chrome

Select the menu
Top right :

Select Settings

Select Site Settings

Select Camera

It will show

<https://media.flickfusion.net>

Select That Link

Permissions may
Say Blocked or Allowed
Either way select
Clear & Reset

Select Clear & Reset
One more time

Return to the original email
and re-open it. Select the
StreamMe link. It should ask for
permissions again. Select
Allow. Should be fixed at this
point.
